

53' MOBILE KITCHEN *nickname: beast 2.0*

Our 53-foot mobile kitchen trailers are also industrial scale assets that have been custom designed for the diverse needs of varied deployment missions. Very similar to the 57' kitchen, except with six ovens aboard instead of eight, it contains all the cooking and production, cold storage, food preparation and sanitation equipment on board to sustain large basecamps, commercial kitchen remodels, and large-scale events.
